

We're celebrating the National Year Of Reading with a variety of special offers.

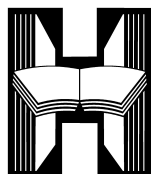

The Usborne Reading Programme was launched in 2002 and has grown, due to its popularity, to now contain over 200 titles. These are beautifully produced hardback books, full-colour images throughout and covering a wide range of fiction genre and non-fiction subjects. The real bonus is that the books retail at either £4.99 or £3.99 each—for this quality, that's a great price.

The programme itself consists of 7 gradually progressing levels. Four in the First Reading and 3 in Young Reading. The Beginners series of information books have been written especially to match National Curriculum needs within science, history & geography.

Our special offer of any 3 titles for £10 is available until the end of the year.

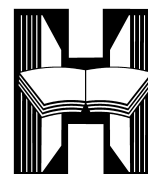

If you wish to take advantage of the offer, mark this sheet and either return it to us by post, fax or email. If you'd like to see any of the titles before placing your order, we have all 208 titles on display in our showroom. Further details about us and how to get to the showroom are in the blue leaflet entitled Educational Books One Source.

Tick the circle to order one, or write a quantity on the line for multiples.
